RELEVANT SKILLS

- Team work
- HTML and CSS
- JavaScript
- PHP
- Python
- Mysql
- Django
- Dart | Flutter

About me: I am a strong willed young lady looking forward to explore more in the tech field and gain more knowledge and experience in different programming languages. I have a strong passion for technology and aim to inspire other ladies to join the tech field. I also purpose to enhance my sight reading and instrument playing skills. I also enjoy mental health discussions and purposeful volunteering programs to give back to the community.

EXPERIENCE

Frontend-Web Developer

Institution: Power Learn Project
(June 2022 - September 2022)

- I took up the Front-end Developer role at Power Learn Project Hackathons and projects. I got to design our teams portfolio website and many other projects. This helped me gain hands on skills as well as Teamwork Skills.
